BLACKWOOD STATION

CASE FILE 001 · UNAUTHORIZED ACCESS · 11:47 PM

A man arrived at Blackwood Station. The records say he was already dead.

Three clues remain. One is false. Use this sheet to record what can be independently verified. This printable companion does not contain the novel or its ending.

Evidence item	What do we know?	What should be checked?
01 · Station clock	The clock stopped at 11:47.	Could the clock be stopped, reset or altered?
02 · Seven names	The ledger lists seven names.	Inspect the original page and its provenance.
03 · Arrival record	The arrival record predates the train.	Compare dispatch, arrival and archive timestamps.

INVESTIGATOR NOTES

The first contradiction I would verify:

Independent record / source:

What remains uncertain:

CASE RULE: A clue is not a conclusion. Separate witness memory, physical evidence and system records until each can be independently checked.

The Ghost Ledger by YY · Reader extra · This is an original companion worksheet, not a chapter from the novel. The website case progress is stored locally in your browser only.
